Who we are

Winify specialises in developing custom digital software solutions

We create the widest range of customised software for our customers. Innovative approaches and technical expertise combine to provide solutions for all types of online propositions: our clients include large corporations, media agencies, consultants as well as start-ups from diverse industries.

eCommerce	eCMS	UX / UI / CX
Mobile	Payment	Cloud

What we do

From Windows to Linux, to iOS and Android platforms; whether it's Java, Scala, Node.js, Javascript or PHP; even with open-source based options such as Magento, TYPO3 and frameworks such as Spring with Hibernate and Angular JS with React.js library. Our teams are supported by expert project managers using Agile project management, and we conduct rigorous testing to make sure that our solutions are of the highest quality.

We expertly craft systems from scratch and offer consultancy on user experience, eCommerce, content management and publishing, mobile apps, payment, hybrid Cloud management, e-Learning, news, telecom, marketing, industrial, travel, logistics, services, asset management, security, games, embedded devices and more.
